PLUME, ARMCHAIR + SOFAS

With a unique stitching detail highlighting all the intersecting faces, the Plume provides the ultimate in down cushioning whilst still focussing on the smallest and most important detail in the upholstery process..... the stitch itself!

The simple geometric shapes of the Plume series is combined with the plump, soft nature of the internal feathering to provide a unique sense of proportion and support.

If leather isn't your cover of choice, we now also offer this beautiful detailing in a special overstitch, utilising a very thick, durable and tactile New Zealand wool, spun and coloured in Denmark. Only the finest quality materials can be used with the focus on such levels of detail.

Dimensions (mm)

Armchair:	900 long x 800 deep x 690 high
