

HULL DINING TABLE, 360° SERIES

Reminiscent of the cross bracing framework used when making wooden boats, this table's underframe is a beautiful piece of design and engineering. The cleanliness and strength of marine ply has purposefully been selected to further express the graceful lines and criss-crossing nature of the structure.

Available in a rectangular or elliptical form and in 3 different sizes, there's sure to be a Hull table to suit your requirements and space. The 90° versions refers to our square and rectangular. For rounded tops please refer to our 360° series.

Dimensions (mm)

Round: 1150 diameter x 750 high

Ellipse: 1900 long x 1100 wide x 750 high

Ellipse: 2400 long x 1100 wide x 750 high
