

LINE COAT STAND

Unique coat stand with a most effective design. Each stand is entirely manufactured utilising thin steel rod. With 7, double sided "hooks" there's ample space to hang all sorts of things, even when entertaining. In essence this coat stand is a 2 dimensional line drawing coming into a real 3 dimensional form. Light, strong, colourful and full of negative space. A real showpiece when walking in through the entrance door.

Dimensions

1735 high x 640 diameter
